- 3.Demo Play

# 01 vision

Blockchain-based Crowdsourcing Solution

Connect all  
crowdsourcing platforms

Be more universal  
and secure

Open Source  
Transparency  
Reputation interworking

Focus on the coding field  
Tend to be centralized

Be smarter

Share global workforce

# Traditional Centralized Crowdsourcing Platforms

Meituan

Delivery

Amazon Mechanical Turk

Traditional crowdsourcing  
marketplace

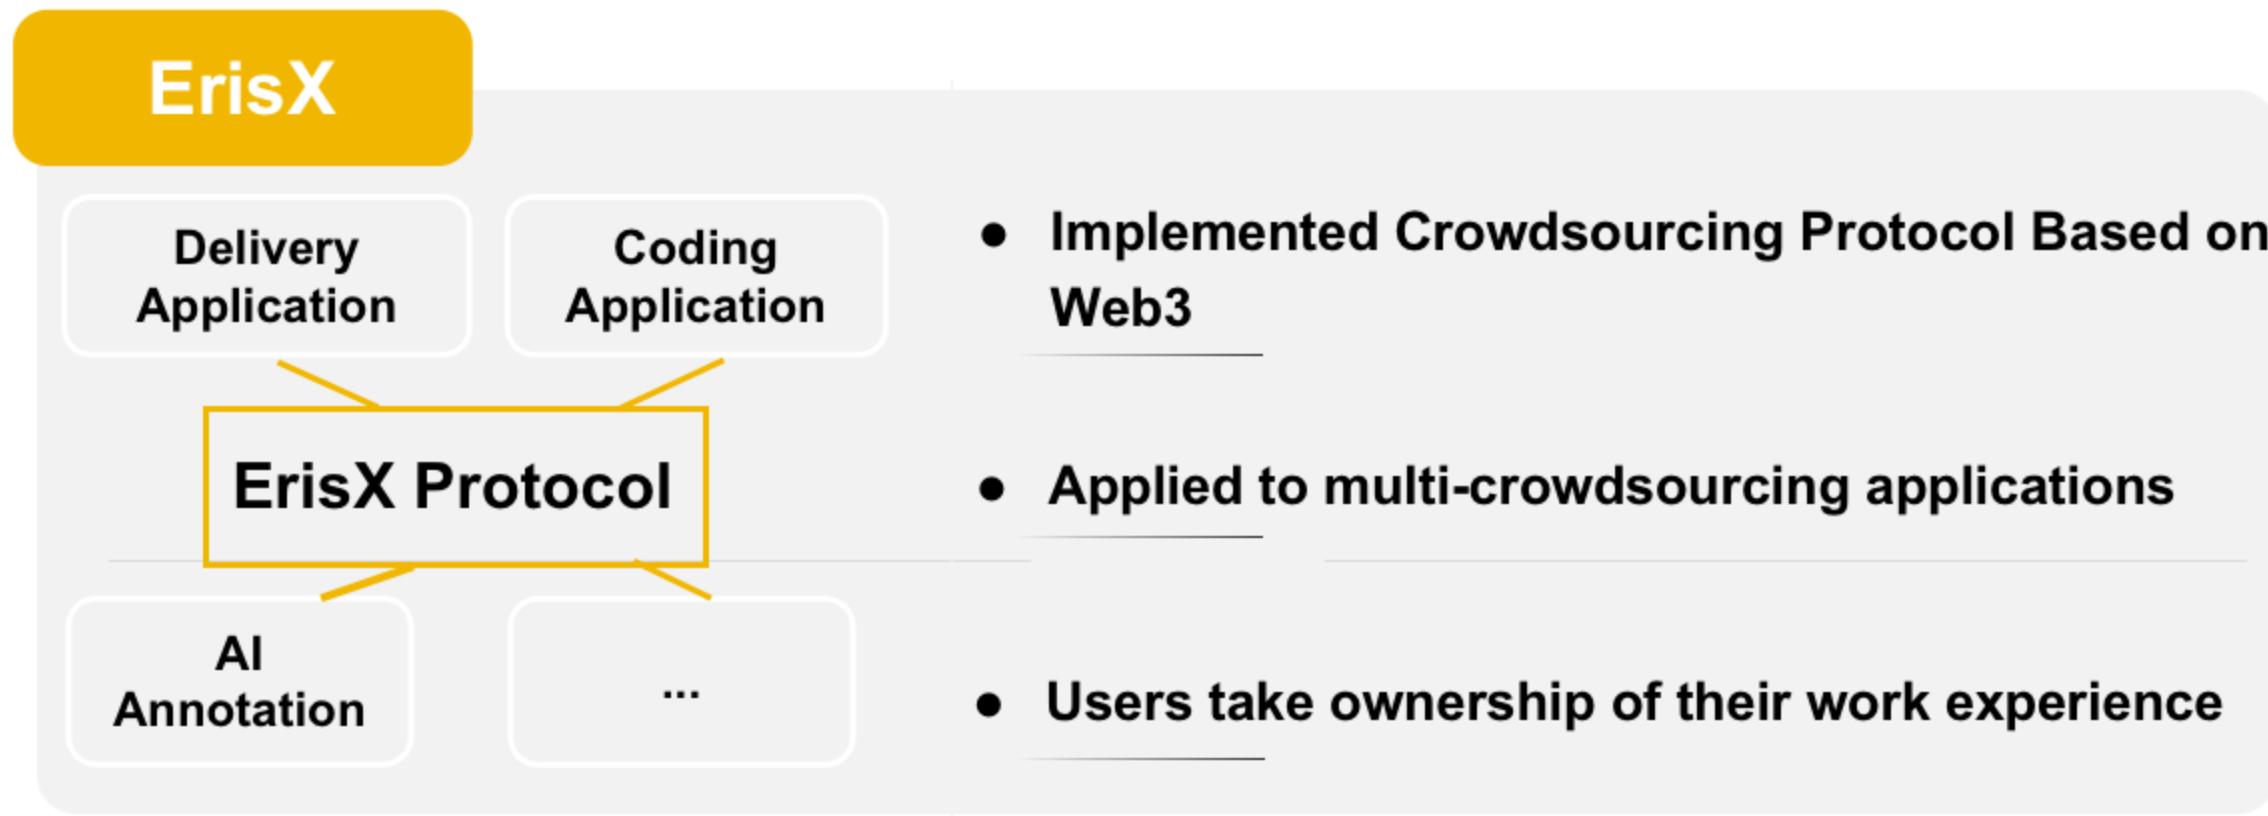

UpWork

Global freelancing  
platform

Centralization & Monopoly & Excessive proportion of profits
